

## Acuerdo de licencia y declaración de software de terceros

EULA11240004

Este Acuerdo de Licencia de Usuario Final (el "EULA") y los Términos Complementarios aplicables (en conjunto, este "Acuerdo") se celebra entre Televes S.A.U. con CIF A-15010176 y domicilio social en Rúa Benéfica de Conxo, 17 | 15706 - Santiago de Compostela (A Coruña) Galicia - España (en adelante, "TELEVES") y el Usuario que adquirió los derechos a usar el Software amparado por el presente Acuerdo. Este Acuerdo se puede aceptar mediante firma manual, firma electrónica o mediante un sistema electrónico especificado por TELEVES. En el sistema electrónico, se le solicitará al Usuario que acepte estos términos haciendo clic en un botón. Al hacer clic en el botón o simplemente al utilizar Productos o Servicios objeto de este Acuerdo, el Usuario confirma que ha leído, comprendido y que ha aceptado expresamente estos términos. Si el Usuario no acepta este Acuerdo, debe devolver los Productos a TELEVES o al proveedor autorizado al que los haya adquirido, antes de su instalación o uso, para obtener el reembolso del precio que haya pagado.

TELEVES acoge con agrado la comunicación de cualquier información relativa a contenidos incorrectos u obsoletos a través de [ip-division@televes.com](mailto:ip-division@televes.com).

1. **TITULARIDAD SOFTWARE.** No se transfiere al Licenciario ningún título dominical o de propiedad sobre el Software. La titularidad del Software, así como todos los derechos aplicables en materia de propiedad industrial e intelectual, incluyendo patentes, derechos de autor, secretos comerciales y otros derechos de propiedad intelectual o industrial inherentes al Software, seguirán perteneciendo a TELEVES o a terceros de los que TELEVES haya obtenido el derecho a conceder la licencia del Software. TELEVES se reserva todos los derechos sobre el Software no concedidos expresamente en virtud del presente Acuerdo. El Software de Terceros será, en todo momento, propiedad del tercero correspondiente, y estará sujeto a los términos de licencia de terceros aplicables.

2. **LICENCIA DE USO.** TELEVES concede al Usuario una licencia no exclusiva e intransferible, sólo para uso propio, del Software en formato ejecutable y de la documentación adjunta de TELEVES y sus licenciantes (colectivamente "Software"), de acuerdo con el número de usuarios, tipo de hardware y términos y condiciones de venta que resulten de aplicación al Software adquirido por el Usuario.

3. **RESTRICCIONES.** El Software y la documentación adjunta tienen carácter confidencial y se encuentran protegidos por derechos de autor. Salvo que específicamente se haya autorizado en cualquier Término Adicional de la Licencia, el Usuario no podrá hacer copias del Software, excepto una única copia del Software con fines de archivo (copia de respaldo). A menos que se estipule lo contrario en la legislación aplicable, el Usuario no puede modificar, sublicenciar, desmontar, realizar labores de ingeniería inversa, descompilar o alterar de cualquier otro modo el Software, ni modificar o eliminar códigos alfanuméricos u otros códigos de identificación sobre soportes de datos. Sin perjuicio de lo anterior, las modificaciones del Software propietario para su propio uso y la ingeniería inversa para la depuración de dichas modificaciones están permitidas solo en la medida en que dichos componentes de Software estén vinculados a las bibliotecas de programas bajo la Licencia Pública General Menor de GNU (LGPL). Se prohíbe la transmisión a terceros de los conocimientos adquiridos durante la ingeniería inversa o la depuración o de la información obtenida de la reingeniería o del software modificado. Este Acuerdo no otorga ningún derecho, titularidad o beneficio sobre o respecto a cualquier marca registrada, marca de servicio, logotipos o nombres comerciales de TELEVES o de sus licenciantes.

4. **SEGURIDAD DEL SOFTWARE Y PRIVACIDAD.** TELEVES podrá integrar mecanismos de seguridad en el Software para controlar el uso del mismo con el fin de verificar el cumplimiento de las presentes Condiciones de Licencia por parte del Usuario. El Licenciario concede a TELEVES el derecho adicional de utilizar los datos recogidos de dichos productos para fines de optimización de productos y servicios de TELEVES. Todos los datos personales que puedan incluirse en este flujo de datos serán tratados de acuerdo con la política de protección de datos de TELEVES. Los términos y condiciones de esta política de protección de datos pueden ser consultados en: [www.televes.com/es/politica-proteccion-de-datos](http://www.televes.com/es/politica-proteccion-de-datos).

5. **SOFTWARE DE TERCEROS Y OPEN SOURCE.** El Software puede incluir software de terceros, incluido software de código abierto (en adelante, "Software de Terceros"). En la medida en que se proporcione Software de terceros sobre el que únicamente se le haya concedido un derecho derivado de uso, serán de aplicación además (y prevalecerán) los términos de licencia de dicho Software de Terceros. Si se suministra Software de Código Abierto, serán de aplicación, además, los términos de licencia del citado Software de Código Abierto, que prevalecerán sobre los que resultan de este Acuerdo de Licencia. Los términos de cualquier licencia de terceros (si los hay) que se aplican al Software se encuentran: a) especificados en las Condiciones Específicas del Producto (o Servicio); o, b) acompañan por separado al Software y se presentan automáticamente para su aceptación antes del primer uso de dicho Software por parte de un Usuario Autorizado; o c) se especifican en el archivo "read me" o "License" o EULA del Software. TELEVES y sus licenciantes proporcionarán al licenciario el correspondiente código fuente del Software de Código Abierto en cuestión, tras recibir la solicitud por escrito y previo pago de los gastos de envío, en el caso de que los términos de la licencia de éste incluyan la obligación de proveerlo. En el caso anterior, cualquier persona puede obtener el código fuente de los componentes del Software de código abierto en un soporte de datos, dentro de los tres años siguientes a la distribución del producto por TELEVES o, al menos, siempre que TELEVES aún ofrezca soporte y piezas de repuesto para el producto, para lo que deberá enviar una solicitud del mismo a la siguiente dirección: - TELEVES, S.A.U. | IP Division | Rúa B, de Conxo 17 - 15706 Santiago de Compostela, España - "Código fuente TELEVES 100020". El licenciario solicitante se obliga al pago de los costes y gastos derivados de la creación y del envío del soporte de datos. Todo el software de terceros se proporciona "tal cual" y en su estado actual. Queda excluida cualquier garantía, expresa o tácita, especialmente la garantía de madurez del mercado o de aplicabilidad para un fin determinado. Todos los derechos de autor figuran identificados con más detalle en el código fuente del software Open Source.

6. **GARANTÍA LIMITADA.** Sin perjuicio de lo establecido en otros términos contractuales y, sin perjuicio, en el caso de que resulte de aplicación, de lo dispuesto en la Ley General de Defensa de Consumidores y Usuarios en relación con el plazo en el que el consumidor final ha de poner de manifiesto la posible falta de conformidad, así como de la legislación en materia de consumo que resulte aplicable, TELEVES garantiza al Usuario que por un periodo de noventa (90) días naturales desde la fecha de adquisición, comprobada por una copia de la factura, el Software proporcionará las características y funciones fundamentales descritas en la documentación y estará libre de defectos en condiciones normales de uso. En tal caso, a elección de TELEVES, se procederá a corregir o a sustituir el Software defectuoso o a reembolsar las tarifas de licencia abonadas por el Software defectuoso devuelto por el Usuario. La mencionada garantía queda automáticamente

excluida en los siguientes casos: i) realización de cualquier modificación o alteración del Software sin autorización expresa de TELEVES; ii) uso no razonable y/o inconsistente o incompatible con la documentación e instrucciones de TELEVES; iii) daños causados por virus informáticos o de Internet, bugs, gusanos, troyanos, malware o cancelbots; y, iv) daños ocasionados por eventos calificados como constitutivos de fuerza mayor. Excepto en los casos especificados anteriormente, TELEVES no ofrece ninguna garantía más allá de las explícitamente estipuladas en el presente Acuerdo.

7. EXCLUSIÓN DE GARANTÍAS. Este Software ha sido elaborado con la máxima diligencia y se ha verificado que funciona correctamente de acuerdo con el actual estado de la técnica. A menos que en el presente acuerdo se estipule lo contrario, TELEVES renuncia a todas las representaciones y garantías, expresas o implícitas, incluyendo cualquier garantía implícita de comercio, idoneidad para un propósito determinado o de no infracción, calidad del software o rendimiento excepto en los casos en que estas exclusiones sean legalmente inválidas. Las declaraciones sobre productos, funcionalidades o servicios en cualquier comunicación con el Usuario constituyen exclusivamente información técnica, no una garantía.

8. LIMITACIÓN DE RESPONSABILIDAD. En la medida en que lo permita la legislación aplicable, en ningún caso TELEVES o sus licenciantes asumirán responsabilidad alguna por daños personales, daño emergente o lucro cesante, la pérdida de ingresos, beneficios o datos, interrupción de la actividad empresarial, o por daños especiales, directos, indirectos, consecuentes, incidentales o punitivos, independientemente del motivo que los origine y del contenido de su responsabilidad, o que se deriven o estén relacionados con el uso del Software o la incapacidad de utilizarlo, incluso en aquellos casos en los que TELEVES o sus licenciantes hubieran sido advertidos de la posibilidad de sufrir tales daños. Tampoco será responsable de los daños derivados de configuraciones deficientes o incorrectas (incluidas aquellas que no incluyan una protección suficiente –o de ningún tipo– mediante contraseña) de las conexiones (incluidas, con carácter no limitativo, las de banda ancha, como el adsl, el cable/doscsis y la fibra óptica, así como las conexiones voip o sip), ni de los costes (incluidos los gastos de conexión) relacionados con el Software suministrado o derivados de instalaciones incorrectas. La responsabilidad total de TELEVES, sus filiales, licenciantes y sus representantes, para todas las reclamaciones y daños relacionados de cualquier forma con este acuerdo, en conjunto e independientemente de la forma de acción, se limitará a la cantidad total pagada por el Usuario por la licencia del Software que ocasionó el daño o es sujeto a reclamación, según lo estipulado en el presente Acuerdo. Las limitaciones anteriores se aplicarán incluso en aquellos casos en los que la antedicha garantía falte a su propósito fundamental.

9. RESOLUCIÓN Y TERMINACIÓN ANTICIPADA. Este Acuerdo es eficaz hasta su terminación. El Usuario puede finalizar anticipadamente este Acuerdo en cualquier momento por medio de la destrucción de todas las copias del Software. TELEVES podrá resolver el presente Acuerdo en cualquier momento y sin notificación previa, cuando el Usuario no haya cumplido alguna de las disposiciones en él incluidas. Una vez extinguido el Acuerdo por cualquier causa, el Usuario deberá cesar en la utilización del Software licenciado y deberá destruir todas las copias del Software instaladas, incluida la copia de seguridad o respaldo.

10. LEGISLACIÓN APLICABLE. El presente Acuerdo se regirá por las leyes españolas, sometiéndose las partes a los juzgados y tribunales de la ciudad de Santiago de Compostela (A Coruña - España), con expresa renuncia a cualquier otro fuero de competencia territorial que pudiera corresponderles.

11. DIVISIBILIDAD. Si cualquier disposición de este Acuerdo es considerada no válida, ilegal o no aplicable, este Acuerdo seguirá siendo válido sin dicha disposición, y se considerará que esta disposición debe replantearse para que refleje la voluntad de las partes deducida del resto del Acuerdo y de los usos propios en este tipo de Acuerdo, de conformidad con la legislación aplicable y, en particular, con las normas de Derecho dispositivo que resultarán de aplicación para integrar la disposición del Acuerdo que haya quedado sin aplicación.

12. INTEGRACIÓN. Este Acuerdo constituye el acuerdo total y completo entre el Usuario y TELEVES en relación con el presente asunto. Sustituye todas las comunicaciones, propuestas, representaciones y garantías anteriores orales o escritas y prevalece sobre cualquier término contradictorio o adicional de cualquier declaración, orden, aceptación, u otra comunicación entre las partes relacionada con este asunto durante el periodo de duración de este Acuerdo. Este Acuerdo solo podrá ser modificado por escrito mediante las firmas de los representantes autorizados de las Partes. En caso de conflicto entre este Acuerdo y un Pedido, el Pedido prevalecerá con respecto a los Productos o Servicios encargados en virtud del mismo. Los términos de cualquier pedido de compra o documento similar del Cliente o Usuario están excluidos y dichos términos no se aplicarán al Pedido de Productos o Servicios, y no complementarán ni modificarán este Acuerdo.

13. PROTECCIÓN DE DATOS PERSONALES. El usuario autoriza expresamente a TELEVES la inclusión en sus ficheros y el tratamiento de todos los datos de carácter personal que le fueran facilitados para la ejecución del presente Acuerdo de licencia de usuario final. Estos datos permanecerán en los ficheros de TELEVES, pudiendo ejercitar el usuario titular de los datos personales o su representante legal, los derechos de acceso, rectificación, cancelación y oposición de acuerdo con la legislación vigente; mediante comunicación escrita remitida por correo electrónico a [dpo@televescorporation.com](mailto:dpo@televescorporation.com), acompañando un documento acreditativo de la identidad y, en su caso, de la representación del usuario, proporcionando los detalles necesarios para procesar la solicitud.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

''License'' shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

''Licensor'' shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

''Legal Entity'' shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, ''control'' means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50\%) or more of the

declaración de software de terceros

EULA11240004

outstanding shares, or (iii) beneficial ownership of such entity.

''You'' (or ''Your'') shall mean an individual or Legal Entity exercising permissions granted by this License.

''Source'' form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

''Object'' form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

''Work'' shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

''Derivative Works'' shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

''Contribution'' shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, ''submitted'' means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as ''Not a Contribution.''

''Contributor'' shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices

Acuerdo de licencia y  
declaración de software de terceros

EULA11240004

stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets `''{\lbrack}{\rbrack}''` replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same `''printed page''` as the copyright notice for easier identification within third-party archives.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public Licenses are intended to guarantee your freedom to share and change

## Acuerdo de licencia y declaración de software de terceros

EULA11240004

free software--to make sure the software is free for all its users.

This license, the Lesser General Public License, applies to some specially designated software packages--typically libraries--of the Free Software Foundation and other authors who decide to use it. You can use it too, but we suggest you first think carefully about whether this license or the ordinary General Public License is the better strategy to use in any particular case, based on the explanations below.

When we speak of free software, we are referring to freedom of use, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish); that you receive source code or can get it if you want it; that you can change the software and use pieces of it in new free programs; and that you are informed that you can do these things.

To protect your rights, we need to make restrictions that forbid distributors to deny you these rights or to ask you to surrender these rights. These restrictions translate to certain responsibilities for you if you distribute copies of the library or if you modify it.

For example, if you distribute copies of the library, whether gratis or for a fee, you must give the recipients all the rights that we gave you. You must make sure that they, too, receive or can get the source code. If you link other code with the library, you must provide complete object files to the recipients, so that they can relink them with the library after making changes to the library and recompiling it. And you must show them these terms so they know their rights.

We protect your rights with a two-step method: (1) we copyright the library, and (2) we offer you this license, which gives you legal permission to copy, distribute and/or modify the library.

To protect each distributor, we want to make it very clear that there is no warranty for the free library. Also, if the library is modified by someone else and passed on, the recipients should know that what they have is not the original version, so that the original author's reputation will not be affected by problems that might be introduced by others.

Finally, software patents pose a constant threat to the existence of any free program. We wish to make sure that a company cannot effectively restrict the users of a free program by obtaining a restrictive license from a patent holder. Therefore, we insist that any patent license obtained for a version of the library must be consistent with the full freedom of use specified in this license.

Most GNU software, including some libraries, is covered by the ordinary GNU General Public License. This license, the GNU Lesser General Public License, applies to certain designated libraries, and is quite different from the ordinary General Public License. We use this license for certain libraries in order to permit linking those libraries into non-free programs.

When a program is linked with a library, whether statically or using a shared library, the combination of the two is legally speaking a combined work, a derivative of the original library. The ordinary General Public License therefore permits such linking only if the entire combination fits its criteria of freedom. The Lesser General Public License permits more lax criteria for linking other code with the library.

We call this license the "Lesser" General Public License because it does Less to protect the user's freedom than the ordinary General Public License. It also provides other free software developers Less of an advantage over competing non-free programs. These disadvantages are the reason we use the ordinary General Public License for many libraries. However, the Lesser license provides advantages in certain special circumstances.

For example, on rare occasions, there may be a special need to encourage the widest possible use of a certain library, so that it becomes a de-facto standard. To achieve this, non-free programs must be allowed to use the library. A more frequent case is that a free library does the same job as widely used non-free libraries. In this case, there is little to gain by limiting the free library to free

Acuerdo de licencia y  
declaración de software de terceros

EULA11240004

software only, so we use the Lesser General Public License.

In other cases, permission to use a particular library in non-free programs enables a greater number of people to use a large body of free software. For example, permission to use the GNU C Library in non-free programs enables many more people to use the whole GNU operating system, as well as its variant, the GNU/Linux operating system.

Although the Lesser General Public License is Less protective of the users' freedom, it does ensure that the user of a program that is linked with the Library has the freedom and the wherewithal to run that program using a modified version of the Library.

The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a 'work based on the library' and a 'work that uses the library'. The former contains code derived from the library, whereas the latter must be combined with the library in order to run.

GNU LESSER GENERAL PUBLIC LICENSE  
TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to any software library or other program which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Lesser General Public License (also called 'this License'). Each licensee is addressed as 'you'.

A 'library' means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

The 'Library', below, refers to any such software library or work which has been distributed under these terms. A 'work based on the Library' means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term 'modification'.)

'Source code' for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.

1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the Library.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

- a) The modified work must itself be a software library.
- b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.

c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.

d) If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.

(For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library.

In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.

Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy.

This option is useful when you wish to copy part of the code of the Library into a program that is not a library.

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.

However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the

library''. The executable is therefore covered by this License. Section 6 states terms for distribution of such executables.

When a ''work that uses the Library'' uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.

If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)

Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.

6. As an exception to the Sections above, you may also combine or link a ''work that uses the Library'' with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications.

You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:

a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable ''work that uses the Library'', as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.)

b) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (1) uses at run time a copy of the library already present on the user's computer system, rather than copying library functions into the executable, and (2) will operate properly with a modified version of the library, if the user installs one, as long as the modified version is interface-compatible with the version that the work was made with.

c) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.

d) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place.

e) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.

For an executable, the required form of the ''work that uses the Library'' must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the materials to be distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

Acuerdo de licencia y  
declaración de software de terceros

EULA11240004

It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.

7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise permitted, and provided that you do these two things:

a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above.

b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.

10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties with this License.

11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to

Acuerdo de licencia y  
declaración de software de terceros

EULA11240004

be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

13. The Free Software Foundation may publish revised and/or new versions of the Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Libraries

If you develop a new library, and you want it to be of the greatest possible use to the public, we recommend making it free software that everyone can redistribute and change. You can do so by permitting redistribution under these terms (or, alternatively, under the terms of the ordinary General Public License).

To apply these terms, attach the following notices to the library. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.
