

## Octo Analogue Modulator PAL B/G for VHF/UHF

8-channel generator in PAL B/G-format from 8 Audio/Video sources. The device includes an RF input in loop mode, so the signal can be mixed with other modulators signals or with the DTT network.

An easy and compact solution for collective facilities not migrated to DTT and with analog televisions still working.

<b>Ref.</b>	585915
<b>EAN13</b>	8424450271599

### Packing

<b>Box</b>	1 pcs.
------------	--------

### Physical data

<b>Net weight</b>	895.00 g
<b>Gross weight</b>	1,095.00 g

### Highlights

- Easy to configure using Android App or an universal programmer
- Includes LED indicators to monitor equipment operation
- Can limit to 2DD (LTE700) frequencies
- Possibility of mixing digital and analog signals under the same distribution
- Compact and light-weight product: can be wall or rack mounted
- Zamak chassis provides high screening effect

### Main features

- Compact equipment with 8 frequency-agile PAL B/G modulators.
- Mixing of multiple units is allowed
- Audio carrier level regulation
- 114 dB $\mu$ V output level
- A/V input and "F" output connectors
- Device programming via USB OTG connection (cable included)
