

F.O. Organizer up to 24 fusions for Splitting Enclosures

Fiber optic organizer designed to accommodate cables in splitting enclosures. The fiber is wound inside in an orderly way and without pinching, it is ideal to avoid the risk of micro and macro bends that can occur during cable management.

Compatible with ref.233003

Ref.	233013
Logical ref.	OK-OSB28
EAN13	8424450251973
