19"-Rack Cabinet 13+2RU

The 13+2RU rack Cabinet is used for the housing of active or passive equipment, visible from the outside and protected by a safe steel lockable structure. Compatible with optical fiber, data cables or coaxial cable installations, it allows the grouping of different technologies in a single cabinet.
Total capacity is 15RU, namely 13RU and an additional 2RU, taking advantage of the top and bottom ends. The rack is equipped with depth-adjustable side profiles, which allow the installation of different types of panels or equipment.
It has a reversible and removable front door with a flexible fit, which facilitates working in the rack. The tempered glass door allows viewing the status of the devices without opening the rack. It also has push-button removable side doors for access to the rack interior through the sides, an advantage when configuring rear connections.
It is designed for wall or floor installation. In addition, it includes a bracket for wall mounting. The independent bracket facilitates installation, since it allows marking the drilling points to screw it to the wall and, after that, to place the rack on it.

Dimensions (W x H x D): 600mm x 682mm x 450mm
Weight: 31kg

Ref.	533113
Logical ref.	MSR1913
EAN13	8424450182017

Other features

Supply method	Assembled
Rack depth	450mm
Height (RU)	13+2RU
Perforated doors	

Packaging info

Box	1 pcs.

Physical data

Net weight	27,950.00 g
Gross weight	30,000.00 g
Width	600.00 mm
Height	682.00 mm
Depth	450.00 mm
Main product weight	27,950.00 g

Highlights

- High strength and durability: made of steel, with a coating based on polyester resins and lead-free pigments

- Safety: Tempered glass, lockable hinged front door

- Laser marking: numerical identification of each "RU"

- Horizontal cable guides: 1U cable panels located at the top and bottom of the cabinet to lead cabling from one side to the other and facilitate connections

- A 120x120mm ventilation kit can be incorporated for the installation of active equipment, such as headends

Recommended ventilation systems for racks:

All our racks are equipped with natural ventilation, but in most cases this is not sufficient as high temperatures can affect the performance of the individual parts of the connection. We therefore recommend installing a **forced ventilation system**.

Our fans are for ceiling installation because they take advantage of the natural upward flow of warm air by placing them at the top of the enclosure.

The compatibility between our racks and fans is described below.

Ref	Height	Dimensions	Mounting	Fan
533105 533106	6RU	600x450 mm	Wall and Floor	533174
