

Wall Support for Maxi Floodlight or InnerLED, rotation up to 90°

Wall support for Maxi floodlight or InnerLED that can be integrated in any context. Designed for anchoring the luminaire on facades, walls or ceilings.

It allows a rotation of the floodlight up to 90°, to direct the light beam towards the area of interest. The wall bracket is made of galvanized steel, which provides great resistance and lacquered in aluminum color RAL 9006.

It is supplied with the necessary accessories for installation.

Ref.	690101
Logical ref.	ISE
