

## Wall Support for AtmosLED or Standard Floodlight

Modern and minimalist arm support for AtmosLED luminaire or Standard Floodlight that integrates into any context. Designed for anchoring the luminaire on all types of facades or walls. It allows a rotation of the luminaire up to 60°, to direct the light beam towards the area of interest.

The AtmosLED wall support is made of lacquered galvanized steel, which provides great strength and durability.

It is supplied with the necessary accessories for its installation.

Different colors of the RAL range are available upon request.

<b>Ref.</b>	69000801
