

Surge protection device Class II

Accessory complementary to all Class II luminaires. It provides extra protection against surges caused by electrical storms. Thanks to the surge protector, maintenance and replacement costs are reduced, as it ensures a longer service life for the luminaires. It has a LED indicator to know the status of the device, whether it is operational or needs to be replaced. It's also protected against ingress of liquids and solids IP66 and includes a watertight connector to prevent water ingress into the connection.

It is compatible with most of our luminaires: CIES, AtmosLED , Urban Maia and Alameda, Villa and Fernandina Lamp, Arousa (Lamp and Bollard), Standard Floodlight and Retrofit (E Series).

Ref.	692101
Logical ref.	SPIP66
EAN13	8424450271711

Packaging info

Box	1 pcs.
