

## Surge protection device Class I

Accessory complementary to all Class I luminaires. It provides extra protection against surges caused by electrical storms. Thanks to the surge protector, maintenance and replacement costs are reduced, as it ensures a longer service life for the luminaires. It has a LED indicator to know the status of the device, whether it is operational or needs to be replaced. It's also protected against ingress of liquids and solids IP67 and includes a watertight connector to prevent water ingress into the connection.

It is compatible with all our Class I luminaires: Maxi, Flex, Flex One and Flex Mini Floodlights, Zar High-bay lamp, InnerLED, Retrofit (E4 Series) and Retrofit Q.

<b>Ref.</b>	692102
<b>Logical ref.</b>	SPDC1
<b>EAN13</b>	8424450278093

### Packaging info

<b>Box</b>	1 pcs.
------------	--------

### Physical data

<b>Net weight</b>	194.00 g
<b>Gross weight</b>	230.00 g
<b>Width</b>	35.00 mm
<b>Height</b>	62.00 mm
<b>Depth</b>	38.00 mm
<b>Main product</b>	164.00 g

### Highlights

---

- Provides overvoltage protection up to 20kV
- Complies with IEC 61643-11 Test Class II standard and certified type 2 and type 3 according to EN 61643-11
- Complies with UL 1449 standard
- Withstands a maximum current of 10,000 A
- Serial connection format
- Compatible with all Class I luminaires
