

DIN Rail Adapter, for EasyF Series Splitters/Taps

Adapter for installation on standard DIN rail of EasyF series splitters and taps. Made of plastic with a gray finish.

The fastening is very robust as the device is screwed to two adapters (one at each side), thus preventing accidental disassembly. The screws to assembly the splitters or taps on the adapters are included.

Supplied in a professional plastic box of 20 units.

Ref.	549901
Logical ref.	DINSAEASYF
