

Plinth for Rack 19"

The 19" rack plinth or pedestal is 80mm high and is used as a base to elevate and stabilize the cabinet above the floor. This additional space allows to neatly hide the wiring of the installation, improving the aesthetics, it also allows the cables to be guided in an organized way through the rear opening. This plinth is compatible with racks 800mm width and 800mm or 1000mm depth (depending on the reference).

Ref.	533401
